1. What this app does

Tip Calculator lets you enter a bill amount, choose a tip %, and (optionally) split the total. No login or account is required.

2. Information we collect

We do not collect, store, or transmit any personal information. All calculations happen locally on your device.

3. Advertising & third-party SDKs

The app displays ads using Google AdMob. AdMob may collect certain data automatically to show and measure ads, such as:

Device identifiers (e.g., Advertising ID)

IP address & general location (country/region)

App interactions with ads (impressions, clicks)

Google's use of data is described in their policy:

<https://policies.google.com/technologies/ads>

You can opt out of personalized ads in your device settings: Android: Settings ► Google ► Ads ► “Delete advertising ID” or “Opt out of Ads personalization”.

4. Children's privacy

This app is not directed to children under 13. We do not knowingly collect personal data from children.

5. Data retention & deletion

Because we do not collect personal data, there is nothing for us to retain or delete. AdMob retains data under Google's policies.

6. Security

No personal data is transmitted to our servers. Standard platform security (Google Play, Android OS) applies.

7. Changes to this policy

If we change what data we collect or how we use it, we will update this policy and change the "Last updated" date above.

8. Contact us

If you have questions, reach out at: ZeiglerDesigns@gmail.com
